July 17 County Informational Meeting:

EPA, WDNR, WDATCP and the Counties attended this meeting. Over 100 citizens attended. A majority expressed an interest in identifying the source of the contamination and expressed frustration that resources were not being provided for alternative water supplies, including treatment.

Pat Kuefler called Dr. Jones at CSD but was not able to talk to him directly. Pat left a voicemail with the information and asked Dr. Jones to contact him but as of late morning Pat had not heard from him. ORC reached CSD's attorney and provided the data and the attorney acknowledged receipt of the information.
